

1. What is STB Venture?

STB Venture is a proprietary trading firm that empowers traders by giving them access to company capital. With this funding, traders can operate across various markets, including forex, stocks, commodities, and cryptocurrencies — sharing a portion of the profits they generate.

2. Who is eligible to trade with STB Venture?

STB Venture is open to traders with any level of experience. Whether you're just getting started or already an expert, we provide the tools and opportunities to grow your skills and trade with real capital.

3. What funding models does STB Venture offer?

We offer three unique funding paths tailored to different trading styles and risk appetites:

- **Instant Funding** – For experienced traders who want immediate access to capital without any evaluation.
- **One-Phase Challenge** – Requires passing a single-stage evaluation to demonstrate trading discipline and profitability.
- **Two-Phase Evaluation** – A more in-depth process involving two stages, each with set profit targets and risk parameters.

Each model is built to match different trader needs, from fast-track funding to structured performance validation.

4. How do I know which funding model suits me best?

It depends on your trading background, confidence, and goals:

- **Instant Funding** is ideal for proven traders ready to jump into the markets.
- **One-Phase Challenge** suits those who want to showcase their skills with one round of evaluation.
- **Two-Phase Evaluation** is perfect for traders who prefer a step-by-step approach to building trust and capital access.

5. What are the trading conditions for each STB Venture funding model?

STB Venture provides three funding models, each with its own parameters, built to suit diverse trading strategies and risk preferences:

a) Instant Funding:

- Daily Loss Limit: 5%
- Max Drawdown: 5%
- Profit Target: 10% (on funded account)
- Profit Split: 50%
- Leverage: 1:100
- Minimum Trading Days: 10

b) One-Phase Challenge:

- Daily Loss Limit: 4%
- Max Drawdown: 6%
- Profit Target: 12% (evaluation) → 5% (funded account)
- Profit Split: 70%
- Leverage: 1:100
- Minimum Trading Days: 10

c) Two-Phase Evaluation:

- Daily Loss Limit: 4%
- Max Drawdown: 8%
- Profit Targets:
 - Phase 1: 9%
 - Phase 2: 5%
 - Funded Stage: 5%
- Profit Split: 80%
- Leverage: 1:100
- Minimum Trading Days: 10

6. Which markets can I access through STB Venture?

With STB Venture, you can trade across multiple asset classes, including:

- **Forex** (currency pairs)
- **Stocks**
- **Commodities**
- **Cryptocurrencies**

This wide selection enables traders to diversify their strategies and explore opportunities in different market environments — all from one platform.

7. What trading styles are allowed at STB Venture, and are there any restrictions?

At STB Venture, we welcome a broad range of trading approaches — including scalping, day trading, and swing trading. However, to maintain fairness and professionalism, all traders must follow our strict code of conduct and trading policy.

Here are some key rules you should know:

- **No Cross-Account Hedging:** Using multiple accounts to hedge positions is strictly prohibited.
- **Profit Distribution Monitoring:** If a single trade generates over 20% of your total profits, it may not qualify as consistent performance.
- **Consistent Position Sizing:** Drastic variations in trade size — especially when inconsistent with your usual strategy — may raise compliance concerns.
- **Banned Strategies:** We do not allow counter-hedging, martingale systems, latency arbitrage, or any behavior aimed at exploiting bonuses or instant-funded accounts from other prop firms.

These rules help us identify disciplined traders who demonstrate sustainable and ethical trading habits.

STB Venture isn't looking for loophole hunters — we're building a network of traders who show skill, stability, and integrity. Our business model doesn't rely on risky tactics; it relies on partnering with professionals ready for long-term success.

8. Which trading platforms are available at STB Venture?

STB Venture offers access to the powerful and widely-used **MetaTrader 5 (MT5)** platform. Known for its sleek interface, customizable tools, and advanced charting features, MT5 supports all types of traders — from beginners looking to learn to seasoned professionals seeking precision and performance.

9. How does the profit split work at STB Venture?

Our funding model is built on performance-based profit sharing. Depending on the plan you choose, you'll receive the following share of the profits you generate:

- **Instant Funding** – 50%
- **One-Phase Challenge** – 70%
- **Two-Phase Evaluation** – 80%

The more you prove your consistency and discipline, the greater your share — aligning your rewards with your level of commitment and skill.

10. What happens if I exceed drawdown limits or break trading rules at STB Venture?

Maintaining discipline is non-negotiable. Breaching drawdown limits or violating any core trading rules may lead to suspension or termination of your account.

We strongly recommend all traders fully understand and respect the risk parameters associated with their chosen funding model to keep their accounts in good standing.

11. What is the process for the One-Phase Challenge at STB Venture?

The One-Phase Challenge is designed to evaluate your trading skills through a single-stage assessment. To pass, you must meet the following criteria:

- **Profit Target:** 12%
- **Daily Drawdown Limit:** 4%
- **Max Drawdown:** 6%
- **Minimum Trading Days:** 10

Once you meet all the requirements, you'll be granted a live funded account with a **70% profit split** — a clear path to trading real capital with proven consistency.

12. How does STB Venture's Two-Phase Evaluation work?

Our Two-Phase Evaluation is designed to assess a trader's consistency and skill across two structured stages:

Phase 1:

- Profit Target: 9%
- Daily Drawdown Limit: 4%
- Maximum Drawdown: 8%
- Minimum Trading Days: 5

Phase 2:

- Profit Target: 5%
- Daily Drawdown Limit: 4%
- Maximum Drawdown: 8%
- Minimum Trading Days: 5

Once both phases are completed successfully, traders are granted a funded account with an **80% profit split**.

13. What kind of resources does STB Venture offer to traders?

We believe in empowering our traders. STB Venture provides a comprehensive support ecosystem that includes:

- **Educational Content:** Webinars, tutorials, and articles to expand your trading knowledge
- **Mentorship Opportunities:** Learn directly from experienced professionals
- **Technical Assistance:** Help with platform setup, troubleshooting, and usage
- **Market Insights:** Frequent updates and analysis to guide strategic trading decisions

Our goal is to help you grow into a consistently profitable trader.

14. How are profit withdrawals processed at STB Venture?

Profit withdrawals are processed on a monthly basis, depending on your account type and funding model. Traders receive their payouts via their selected payment method. Please ensure full compliance with all trading rules and risk parameters to remain eligible for withdrawals.

15. What happens if I break trading rules during evaluation or after funding?

Failure to comply with trading rules — such as exceeding drawdown limits or skipping the minimum required trading days — may lead to account review, suspension, or termination. STB Venture prioritizes responsible risk management and consistent behavior. Respecting the rules isn't just a requirement; it's the foundation of long-term success.

16. Does STB Venture offer a scaling program for high-performing traders?

Yes — traders on the Instant Funding plan who reach a 10% profit target unlock the option to either withdraw their profits or double their account size.

This scaling model is designed to reward consistent results and empower traders to grow their capital as their performance improves.

17. Are there any fees involved in the evaluation or funded programs?

STB Venture charges a one-time evaluation fee for both the One-Phase and Two-Phase models. This covers the cost of assessing your performance and risk management abilities.

There are no ongoing monthly fees for funded accounts. However, traders are responsible for any trading-related costs such as spreads and commissions based on platform terms.

Additionally, traders who pass their evaluation successfully will have their evaluation fee refunded once they receive a funded account — a reward for proving consistent skill.

18. Can I trade during news events and high-impact releases?

Yes, news trading is permitted. However, high-impact events come with elevated volatility and risk.

Traders are expected to have strategies that can withstand such market conditions while staying within all risk parameters — including drawdown limits — at all times.

19. How are accounts funded, and how are withdrawals managed?

Once you pass the evaluation, STB Venture funds your account with firm capital.

Profit withdrawals are typically processed monthly, based on your agreement. Traders can choose from a variety of payment methods, including crypto transfers and digital wallets. Timely processing and flexible options ensure easy access to your earned profits.

20. Does STB Venture offer educational content or mentorship support?

Absolutely. STB Venture is committed to trader development. We provide:

- Webinars, tutorials, and articles to build your trading knowledge
- Mentorship opportunities where less experienced traders can learn from seasoned professionals
- Strategy sharing, performance feedback, and guidance to accelerate growth

Our mission is to help you become not just funded — but consistently successful.

21. What is the minimum number of trading days required during the evaluation?

To ensure consistency and proper risk management, traders must complete **at least 10 trading days** during both the One-Phase and Two-Phase Evaluation programs.

This helps confirm that performance is not based on a single lucky trade but reflects a sustainable approach.

22. Can I hold trades overnight or over the weekend?

Yes — STB Venture allows positions to remain open overnight and during weekends. However, traders must carefully assess the risks of holding through low-liquidity periods or news gaps.

All open positions are still subject to standard risk rules, including drawdown limits, so your strategy should be designed with volatility in mind.

23. Is there a scaling option available for funded traders?

Absolutely. Traders on the Instant Funding plan who hit a 10% profit milestone unlock the option to either **withdraw profits** or **scale up their account size**.

This scaling plan enables traders to grow their capital steadily based on proven consistency and performance.

24. What kind of support does STB Venture offer to help traders thrive?

At STB Venture, we're deeply invested in our traders' success. We provide a full suite of support tools, including:

- **Educational Resources:** Webinars, tutorials, and insightful articles to sharpen your trading skills
- **Mentorship Access:** Learn directly from seasoned traders with real-world experience
- **Technical Support:** Assistance with trading platforms, account issues, and tools
- **Market Intelligence:** Ongoing updates and analysis to support informed trading decisions

Our mission is to help you not just trade — but grow, refine your strategy, and succeed consistently.

25. How does STB Venture protect traders' data and privacy?

We take data security seriously. STB Venture uses industry-grade encryption and secure servers to safeguard your personal and financial information.

In addition, we follow strict privacy protocols and fully comply with data protection laws. Your information is kept confidential and is used only for legitimate purposes that serve your trading experience — never for unauthorized access or third-party sharing.

26. How does STB Venture handle account funding and profit withdrawals?

Once you successfully pass the evaluation, you'll gain access to a fully funded account backed by STB Venture's capital.

Profit withdrawals are typically available on a **monthly basis**, with all terms and payout methods clearly outlined in the trader agreement.

You can choose from several secure payment options, including **bank transfers** and **digital payment systems**.

27. Are there any costs involved with evaluations or funded accounts?

Yes — traders joining either the One-Phase or Two-Phase Evaluation programs are required to pay a **one-time fee** that covers performance assessment and risk evaluation.

There are **no recurring fees** for funded accounts. However, you'll still be responsible for **platform-related costs** like spreads or commissions as per standard trading conditions.

28. Is news trading allowed, especially during major economic events?

Yes, news trading is permitted. However, high-impact events come with sharp volatility, so traders should proceed with caution.

All risk rules — including drawdown limits — still apply during news periods. We expect traders to have robust strategies capable of managing rapid market shifts.

29. Does STB Venture provide learning resources and mentorship?

Absolutely. Trader development is at the heart of our mission. We offer:

- **Educational Content:** Webinars, tutorials, and trading guides
- **Mentorship Access:** Connections with experienced professionals to gain insights and refine strategies

Whether you're new or experienced, there's always room to grow at STB Venture.

30. What kind of traders is STB Venture looking for?

We're building a network of **disciplined, ethical, and high-performance traders**.

We're not interested in loophole exploitation or unethical tactics. Our firm already excels at generating returns — we're here to empower traders who bring integrity, long-term focus, and consistency to the table.

31. When is KYC verification required at STB Venture?

To comply with regulatory standards and ensure secure trading for all participants, STB Venture requires traders to **submit KYC (Know Your Customer) documents during registration**.

This verification must be completed **before accessing a funded account** or initiating live trading.

32. Can I merge multiple accounts at STB Venture?

At this time, **account merging is not supported**. Each STB Venture account operates independently to maintain accurate performance tracking and uphold proper risk controls.

33. How is the daily loss limit calculated?

Your daily loss limit is based on the **initial account balance**, not your equity.

For example, if your starting balance is \$100,000 and your daily loss limit is 5%, you may not lose more than \$5,000 in a single trading day — regardless of profits or losses from prior days.

This structure ensures consistent daily risk management.

34. How is overall drawdown calculated at STB Venture?

The overall drawdown is also tied to your **initial account balance**.

If your account starts at \$100,000 with a maximum drawdown of 5%, your equity should never fall below \$95,000 — including both realized and unrealized losses.

35. Will I get my evaluation fee back after passing the challenge?

Yes! At STB Venture, traders who pass either the One-Phase or Two-Phase Evaluation successfully will receive a **full refund of their initial evaluation fee** once they're funded. It's our way of recognizing traders who prove their consistency and discipline throughout the evaluation process.

36. Does STB Venture offer an affiliate program?

Yes — STB Venture runs an affiliate program where individuals can earn **commissions by referring new traders**.

Affiliates earn rewards for each qualified signup that meets the program's requirements. For more info, check our Affiliate Program page.

37. Can I use my trading profits to purchase a new account?

Yes. Once you've earned profits from a funded account, you're free to use them to **purchase additional accounts** or join other programs within STB Venture.

This flexibility gives you the opportunity to scale up and diversify your funded trading journey.

38. What if my account is in profit but I exceed the daily loss limit?

Even if your account is profitable overall, **violating the daily loss limit counts as a breach** of our risk management rules.

This can lead to **suspension or termination** of your funded account. It's critical to respect all risk limits at all times to keep your funding active.

39. Can I reset my account if I make a mistake?

STB Venture **does not offer account resets**.

Traders are expected to operate within the defined risk rules from the start.

Risk control is part of the challenge — mastering it is essential to long-term success.

40. How many accounts can I have with STB Venture?

You can hold multiple accounts at STB Venture — however, **each one must be managed independently**.

Account merging is not allowed. Make sure to handle each account in accordance with its own parameters and rules.

41. Can I pay using cryptocurrency at STB Venture?

Yes — STB Venture supports **cryptocurrency payments** for evaluations and other fees. Simply choose the crypto option at checkout and follow the on-screen instructions to complete your payment **securely and efficiently**.

42. How can I get STB Venture's IBAN for bank transfers?

For privacy and security, IBAN and bank transfer details are **shared upon request**.

Please contact our support team, and we'll provide the banking information you need to complete your transaction safely.

43. When does my trading cycle begin?

Your trading cycle officially starts **when you place your first trade** on a funded account. For example, if your first trade is on a Wednesday, your trading cycle begins that day and continues as outlined in your trader agreement.

44. What is the commission structure on STB Venture trading accounts?

STB Venture offers **competitive commission rates** that vary depending on your account type and the instruments you trade.

For exact details, please refer to your account specifications or contact our support team for a full breakdown.

45. Can I use a VPS or VPN with my STB Venture account?

Yes — you are free to use **Virtual Private Servers (VPS)** or **Virtual Private Networks (VPN)** to maintain a stable, secure connection to the platform.

This is especially useful if you're in a region with poor internet stability or need low latency execution.

46. Is there an inactivity policy for STB Venture accounts?

STB Venture does not enforce a strict inactivity policy.

However, if you plan to take a long break, it's a good idea to **notify our support team** to avoid any misunderstandings or status issues with your account.

47. Am I required to use a stop-loss on every trade?

While using a stop-loss (SL) is **not mandatory**, it is **strongly recommended** as a key component of responsible risk management.

Stop-loss orders help minimize losses and protect your capital during volatile market moves.

48. Are there any hidden or recurring fees at STB Venture?

No hidden costs — ever.

STB Venture maintains full **transparency** with all fees clearly outlined in your account terms.

There are no recurring charges beyond the initial evaluation fee and standard trading costs like spreads or commissions.

49. Who handles tax obligations on trading profits?

You, as the trader, are **solely responsible** for any taxes related to your trading profits.

Be sure to follow the tax regulations in your country, and consult a professional accountant if you're unsure how to report your earnings properly.

50. How does STB Venture manage slippage during executions?

Slippage can happen during high volatility or low liquidity events. While STB Venture aims for precise execution, **slippage is a natural part of trading**.

We recommend using **limit orders** when possible to reduce slippage risk, especially during fast-moving market conditions.

51. Does STB Venture support cryptocurrency trading?

Yes — STB Venture offers access to a variety of **cryptocurrency pairs**, allowing traders to apply their strategies within a well-defined risk management structure.

Crypto trading is fully integrated into our suite of supported markets.

52. Can I open a corporate account with STB Venture?

Absolutely. **Corporate accounts** are available for businesses looking to engage in proprietary trading.

To get started, please reach out to our support team — we'll guide you through the onboarding process, documentation, and specific requirements.

53. Are there any regional restrictions for joining STB Venture?

While STB Venture serves a global community, **some geographic restrictions may apply** due to regulatory guidelines.

We recommend reviewing our terms and conditions or contacting support to confirm eligibility based on your country of residence.

54. What is STB Venture's policy on data security and backup?

STB Venture implements **robust data backup and recovery systems** to protect your information at all times.

We perform regular backups and maintain contingency protocols to prevent data loss and ensure business continuity.

55. Can I trade multiple asset classes at STB Venture?

Yes — STB Venture offers a diverse range of **asset classes**, including:

- Forex
- Commodities
- Indices
- Cryptocurrencies

This multi-market access empowers you to diversify your strategy and take advantage of a broader set of trading opportunities.
